

FTNTTF report

October 2017

The Task Force to create a promotion ladder for full-time CNT faculty has completed a proposal and received positive feedback from FTNTTF on a digest of its most important points. FRRRC provided feedback on the proposal and the Task Force is now meeting again to discuss the feedback. This also gave the opportunity for some FTNTTF who are still not considered CNT to express a long-standing concern about the nature of their positions, especially if they have been continued for several years. This is something FRRRC will hopefully address in the near future.
